

# Are you an ex serviceman or woman? A reservist or cadet?

## We would like to hear from you!

Tameside Council is working to build on our Armed Forces Covenant network. We want to help get people connected to support Armed Services and to commemorate and celebrate our great military heritage.

Our organisation **TASC (Tameside Armed Services Community)** is for serving and ex services; reservists; cadets; businesses and the community as a whole. It's for anyone interested in helping our services come together within Tameside.

If you have a story, an announcement, an event, a request, an offer to help or a reunion, then please get in touch. We also want to register veterans of all ages to invite to events.

We are also urging all ex-service personnel and current Armed Forces members to let their GP know of their service to their country.

Those who have served previously may be entitled to priority treatment, while for those currently serving their families should not be disadvantaged when accessing NHS services, due to them moving around as the result of a new posting.

If you, your family, your friends or neighbours are ex-service personnel then please spread the message so GPs know and can help.
